📍 Coimbatore, India | ✉ kit27.am34@gmail.com | ☎ +91 6369288064 | 🔗 [nithishkumar](#) | 🔄 N-Nithishkumar

EDUCATION

KalaignarKarunanidhi Institute Of Technology, India	2023 – 2027
B.E. CSE (Artificial Intelligence & Machine Learning), Pre-Final year	Current CGPA : 8.46/10.0
Coursework: DSA, OS, DBMS, OOPS, AI, Machine Learning, Deep Learning, Computer Networks	SSLC – All pass HSC – 79%

EXPERIENCE

Machine Learning Training EtherInfotech – Coimbatore, India (offline)	Sept - Oct 2024
- Completed structured training in Machine Learning, covering supervised & unsupervised algorithms. - Learned data preprocessing, feature engineering, and model evaluation techniques. - Worked with Python, NumPy, Pandas, Scikit-learn, and Matplotlib for hands-on ML tasks. - Built small ML projects as part of the curriculum, including regression and classification models.	
Full Stack Development Training Learnlogicify – Coimbatore, India (offline)	May - June 2025
- Completed hands-on training in HTML, CSS, JavaScript, and fundamentals of backend development. - Built responsive web pages and mini web applications following modern UI/UX practices. - Learned basic API development, database concepts, and deployment workflow.	

PROJECTS

Wine Quality Prediction Python / Flask / Machine Learning / SQLite / HTML/CSS/JS	Link Sept 2025
- Built an ML-powered Flask app that predicts wine quality using the UCI red wine dataset. - Designed a clean, responsive UI with HTML, CSS, and JS for real-time predictions. - Added SQLite history tracking to store and view past prediction results.	
Smart Baby Monitor IoT – Sensors & Components / Arduino / MQTT / BLYNK / HTTP / C++	Link Nov 2025
- Designed an IoT-based system to monitor baby using motion, location, and environmental sensors for real-time data collection. - Transmitted sensor data to the cloud via MQTT, HTTP, BLYNK for continuous remote monitoring. - Alerts user through telegram notification when baby wake up, move somewhere, cry detection, tracking baby activities.	
AI Based Smart Fee Monitoring for Mentors MERN Stack / Python Fast API/ OCR / Deep Learning	Link May 2026
- Developed an AI-powered MERN stack application for student fee tracking and payment verification. - Integrated OCR, fraud detection, chatbot, and notification modules for automated monitoring and secure validation. - Built responsive dashboards for students, mentors, parents, and management with real-time fee analytics.	

TECHNICAL SKILLS

C	DSA	Javascript	Git	SQLite
Python	OOPS	Node.js	Github	MongoDB
Java	SQL	React.js	VS Code	Jupyter

CERTIFICATIONS & COURSES

NPTEL	: Introduction to Large Language Model	Link 2025
NPTEL	: Design Thinking (Elite)	Link 2024
Infosys	: Foundation Of Python	Link 2024
Coursera	: Introduction to AI/ML/DS/CYBER/JAVA	Link 2025
NPTEL	: Cloud Computing (Elite)	Link 2026

COMPETITIVE PROGRAMMING

Leetcode : Max rating - **1607** | Solved problems: **300+** | Top **28.22%** globally | Badges : **5** |
Codeforces : Max rating - **1342** | Position: Pupil | Solved problems: **50+** |
Codechef : Max rating - **1501** | Position : **2 Star** | Problems solved : **660+** | Global Rank : **41746** |
Github : **200+** Contribution | **Codolio** : **100+** Contests Attended & **1000+** Problems solved in various platforms |

ACHIEVEMENTS

Published paper at ICCSS'25 that represents a work on an intelligent AI-IoT smart helmet that identifies fatigue, alcohol, noise, and helmet removal, providing real-time alerts to prevent site accidents.	Link 2025
- Achieved 3rd place in the Technical Clash competition at Dr. NGP College; awarded a ₹500 cash prize. - Secured Top 50 in intercollege 24hrs Hackathon at KIT. - Achieved 1st place in a Cricket Tournament hosted by Dr. Mahalingam College.	

VOLUNTEERING

- Coordinated an event during the College Technical Symposium, Facilitating seamless implementation of the participants
- Delivered an IoT project demonstration to juniors as part of the college IoT Expo event.
