

Sudarshan P

Coimbatore, Tamil Nadu | kit27.am54@gmail.com | 8072017839 | linkedin.com/in/sudarshan-p-8046312a5 | github.com/iamsudarshan04

EDUCATION

Kalaigarnar Karunanidhi Institute of Technology (KIT) – Tamil Nadu, India

CGPA: 8.03/10.0 2023 – 2027

B.E. in Computer Science Engineering (AI & ML), Pre-Final Year

Coursework: Machine Learning, Deep Learning, Artificial Intelligence, Computer Networks, Operating Systems, DBMS

SSLC: All Pass | HSC: 85.3%

EXPERIENCE

Full Stack Developer – LearnLogicify LLP

Coimbatore | 1 Month

- Engineered production-grade full-stack web applications, cutting client onboarding time by 30% via optimized UI flows.
- Developed 10+ reusable component-based UIs and integrated RESTful backend APIs using modern web technologies.
- Followed industry best practices including Git/GitHub version control, clean code standards, and Agile workflows.

Data Analyst Intern – Xuvax Private Limited

Coimbatore | 1 Month

- Analyzed and processed 50,000+ record datasets, extracting 5 actionable business insights using Python and Pandas.
- Designed 8 interactive dashboards and visual reports, accelerating data-driven decision-making by 25%.
- Reduced pipeline errors by 20% through systematic data cleaning, validation scripts, and industry-standard QA methods.

PROJECTS

AI/ML Financial Decision Support System | Python, Machine Learning, Time Series Forecasting | [GitHub](#)

- Built an end-to-end AI/ML pipeline to analyze stock performance, predict returns, and evaluate investment portfolios.
- Engineered predictive models achieving 85%+ accuracy, reducing emotion-driven decisions and promoting data-led strategies.
- Utilized Python for data processing, feature engineering, and LSTM/ARIMA time-series forecasting model development.

Legal Document Review Assistant | NLP, RAG, LLMs, LangChain, Vector DB, OCR | [GitHub](#)

- Built an AI-powered legal analysis system using NLP and LLMs to extract and classify clauses from contracts.
- Implemented Retrieval-Augmented Generation (RAG) with vector databases to enable context-aware search and Q&A.
- Developed risk detection by benchmarking clauses against predefined rules, reducing manual review time by 60%.

StoreSight - Seller Management System | MERN Stack, React, Node.js, MongoDB, JWT, REST APIs | [GitHub](#)

- Developed a full-stack inventory and sales management system using React and Node.js with secure JWT-based authentication.
- Implemented RESTful APIs for product CRUD operations and real-time sales tracking with automatic inventory updates.
- Built interactive dashboards with data visualization and analytics, improving business insights and stock monitoring efficiency.

TECHNICAL SKILLS

Programming Languages : Python, C++, Java, C

Tools & Platforms : Git, GitHub, Vercel, NodeMCU, Render, VS Code

Web Technologies : HTML, CSS, JavaScript, React.js

Backend & Databases : FastAPI, Node.js, SQL, MongoDB

AI / ML : Machine Learning, Deep Learning, Data Analysis, Time Series Forecasting

Core CS : Data Structures & Algorithms, OOPS, DBMS, Operating Systems, Computer Networks

COMPETITIVE PROGRAMMING

Solved 1000+ algorithmic problems across LeetCode, CodeChef, and Codeforces covering data structures, dynamic programming, graphs, greedy algorithms, and binary search optimizations.

LeetCode : Max Rating 1636 | Top 18% globally | Consistent problem-solving across all difficulty levels

CodeChef : Max Rating 1499 | Strong performance in timed rated contests and long challenges

Codeforces : Max Rating 1011 | Regular participant in Div. 3 and Div. 4 competitive rounds

ACHIEVEMENTS, VOLUNTEERING & CERTIFICATIONS

Achievements & Volunteering

- 2x Winner – Inter-college Paper Presentation (AI/ML)
- Champion – Web Dev Competition, tech fest
- Winner – Code Debugging Competition
- Participant – IIT Madras National Hackathon
- Master of Ceremony – Technical Symposium

Certifications & Courses

- Google: AI Essentials [\[Link\]](#)
- IBM: Data Analysis for Machine Learning [\[Link\]](#)
- NPTEL: Design Thinking [\[Link\]](#)
- Infosys: Introduction to Deep Learning [\[Link\]](#)
- Cisco: Networking & Security [\[Link\]](#)
